

# CID Custom Crane Cabs

Our Experience, Engineering and Planning make the difference.

When you ask our customers how CID performed for them, some of the comments you'll often hear are: experience, excellence and on-time completion.

When CID takes on a job, nothing is left to chance. Our crane cabs make operators safer, more comfortable, and more productive.

CID engineers plan every job thoroughly to ensure compliance with OSHA standards. Attention to every detail

is only one element of every CID crane cab retrofit. You are offered a choice of fixed or sliding glass windows, insulated or tinted safety glass, and tempered or laminated glass. And, we make sure the lighting, ground fault receptacles, switches, doors, warning lights, access platforms, handrails, ladders and HVAC systems are all to your specifications.

For more information, call CID today. And remember, **At CID, your custom is our standard.**

Outdoor gantry crane - US Steel Edgar Thompson Works.  
Slanted wall was designed by CID to reduce operator glare, improve visibility, and increase safety.
