

There's Plenty of Room at the Top

"Feel the Strength"

There just isn't much competition.

CID is producing the next generation of liftable, stackable and expandable buildings while the competition is producing excuses why it can't be done. So, if you're looking for room at the top of an already installed structure or an entirely new modular building, look at the top performer in the field – look at CID.

"Feel the Strength"

Chosen for its **C**ompetence, **I**ntegrity & **D**elivery time after time.

You'll be in good company when you contract with the professionals at CID
